WaveOne® Gold Glider

Surf the canal with confidence

WaveOne® Gold offers you the simplicity of a one-file reciprocating shaping system combined with higher flexibility to respect the canal anatomy.

We now introduce WaveOne® Gold Glider – a reciprocating glide path file to optimize your shaping preparation. Experience the feeling of confidence throughout your treatment.

WaveOne® Gold Glider

Optimize your shaping preparation with a single reciprocating glide path file that is part of the WaveOne® Gold solution.

- Respects the natural shape of the canal
- Gold technology increases patient safety with enhanced flexibility and resistance to cyclic fatigue*
- Sterile and ready for single use, which preserves cutting efficiency, reduces breakage and prevents cross contamination

The WaveOne® Gold Glider is only for use in reciprocating motion with compatible Dentsply Sirona motors. Helpful pre-programmed motor settings are available.

This new single glide path file has been designed in collaboration with a team of endodontist experts : Dr E. Berrutti, Dr G. Cantatore, Dr A. Castellucci, Dr S. Kuttler, Dr W. Pertot, Dr C. Ruddle, Dr J. Webber, Dr J. West.
